## INDIVIDUALLY DESIGNED PROPOSAL

**CLAIMANT: 11-Year-Old Male**

**INJURY: Medical Malpractice**

An 11-year-old boy was injured in a playground accident and was rushed to the emergency room. X-rays were taken on his foot but they were read as negative but, in fact, showed a fracture. After two months of continued pain, an orthopedist read the film and diagnosed a fracture. In the interim, arthritis set in which eventually required a joint fusion in the foot.

BENEFIT	COST	GUARANTEED YIELD	EXPECTED YIELD
